

School Status *(1 of 6)*

- ▶ State Technical College of Missouri (www.statetechmo.edu)
 - Collaboration Opportunity
 - Networking Systems Technology
 - Electrical Distribution Systems
 - Heavy Equipment Operations
 - Welding Technology
 - Program Objectives
 - Cause future employees to self-select out during education rather than after employment
 - Build clarity on graduate skill level and experience
 - Program Results
 - Grant contract in final edits
 - Multiple classes graduated, Class size 25+, nearly 100% job placement, Sellenriek dramatically reduced employee turnover

School Status *(2 of 6)*

▶ Wisconsin Indianhead Technical College (www.witc.edu)

- Collaboration Opportunity
 - Telecom Technician

– Program Objectives

- Train individuals to become underground and overhead fiber optic cable install technicians
- Structure underground program for potential expansion to gas distribution and electric conduit install and overhead electric line install.

– Program Status

- Grant contract signed
- 1st class currently in session
- Difficulty in attracting larger number of students – PCCA to provide support

School Status *(3 of 6)*

- ▶ Terra State Community College (www.terra.edu)
 - Collaboration Opportunity
 - Telecom Technician
 - Program Objectives
 - Train individuals to become underground and overhead fiber optic cable install technicians
 - Program Status
 - Grant contract signed
 - 1st year of program designed, originally targeted program start in fall of 2020, delayed due to COVID19
 - Difficulty in attracting larger number of students – PCCA to provide support

School Status *(4 of 6)*

- ▶ Somerset Community College (www.somerset.kctcs.edu)
 - Collaboration Opportunity
 - Telecom Technician
 - Program Objectives
 - Train individuals to become underground and overhead fiber optic cable install technicians
 - Program Status
 - Grant contract in final edits
 - Proposal accepted, program development just beginning
 - Preliminary Advisory Committee in formation

ElectriCom

School Status *(5 of 6)*

- ▶ Monroe County Community College (www.monroeccc.edu)
 - Collaboration Opportunity
 - Telecom Wireless Technician
 - Program Objectives
 - Train individuals to become wireless telecommunication install technicians
 - Program Status
 - Grant contract signed
 - MCCC submitted a proposal to PCCA on September 22nd, 2020 to begin curriculum with a General Utility Installer Technician Certificate.
 - Gabe's and MCCC now has regularly scheduled meetings to move the program forward
 - Initial training structure will be to develop a Certificate based program that will utilize several existing classes and a few additional classes
 - Intent is to develop and refine curriculum for the General Utility Installer Technician program in the Winter of 2021 semester
 - We are working with MCCC to announce this initiative publicly to gain interest and momentum as we move into 2021.
 - In parallel with the Utility Installer Technician initiative we are working with MCCC to develop a Wireless Technician program as well.

MONROE COUNTY
COMMUNITY COLLEGE

School Status *(6 of 6)*

▶ Harrisburg Area Community College (www.hacc.edu)

- Collaboration Opportunity
 - Telecom Technician
- Program Objectives
 - Train individuals to become underground and overhead fiber optic cable install technician
- Program Status
 - Discussions continue around basic approach;
 - Harrisburg not formally accepted into PCCA & Grant program yet, once discussions conclude and program proposal is submitted PCCA will review and determine next steps
